RE: Taylor Placer ACT/019/016 Addendum to This Application

Dear Ms. Linner:

It has been some time since we submitted to you the application for a mining permit on the above referenced property. Since then we have determined to set up an additional processing unit which we will call Unit #3 or "Nancy" by name. This unit will actually be in production before Unit #2 as shown on the contour location maps submitted with the application. Enclosed is an additional map showing contours and location of the "Nancy" unit.

"Nancy" is identical with Unit #1 with the exception that it would be processing more material. It will be subject to the same conditions as set forth in the original application. Tailings ponds are being constructed now with shake-down start-up expected to be some time within the next six weeks and production in about two months.

I hope that you will give this proposal your most favorable and expeditious consideration.

Sincerely,

Wilford W. Ruf
Properties Manager
